

Magento Notification Bar Extension Installation Guide

Compatibility:

Community Edition: 2.0.x, 2.1.x
Installation

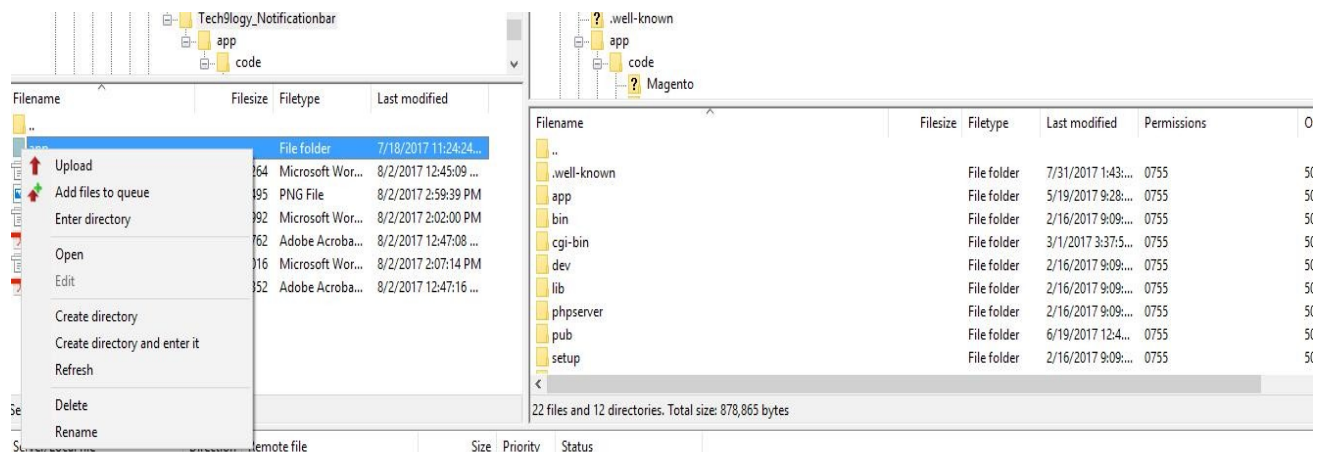

Step – 1 Check Permission

Make sure the “app” directory of your Magento store and all directory inside /app/ have full written permission.

Important Note: Change all permission back after installation.

Step – 2 Upload Files

Extract the downloaded Zip file and upload **App** folder from the extension package to the installation root directory of Magento.

Step – 3 For Enable This Plugin, Run these SSH Commands Under Magento

Root Path

- `php bin/magento module:enable Tech9logy_Notificationbar`
- `php bin/magento setup:upgrade`
- `php -f bin/magento cache:flush` (For cache clearing)

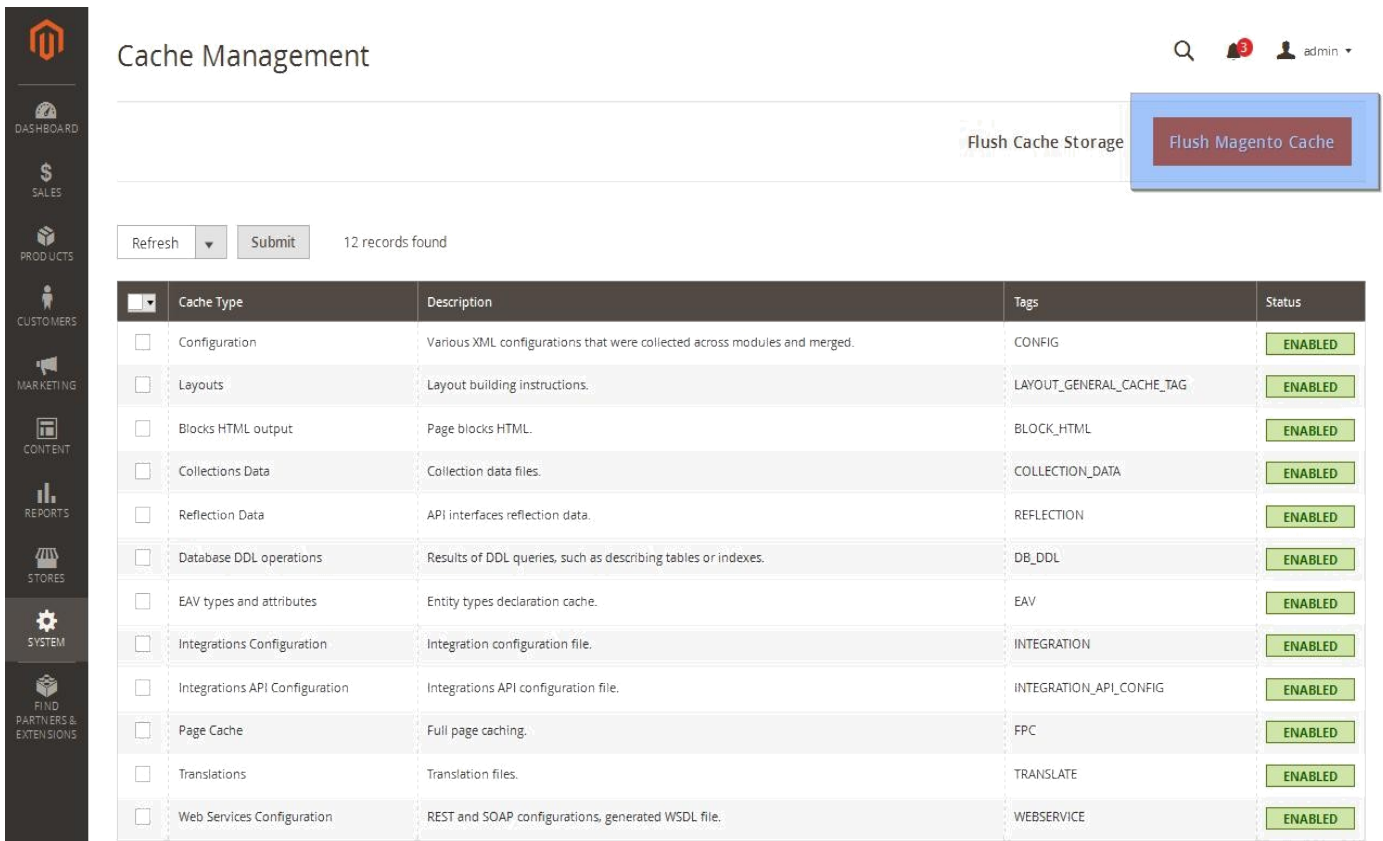

**** Now plugin installed & enabled successfully ****

Step – 4 Clear Cache again by SSH following command

- `php -f bin/magento cache:flush` (For cache clearing)

OR

- Login to your Magento Admin Panel.
- Navigate to System>Cache Management section.
- To clear the entire Magento 2 cache, click on the button titled **Flush Magento Cache**.

Cache Management

Flush Cache Storage **Flush Magento Cache**

Refresh Submit 12 records found
