

# **Magento Notification Bar Extension**

## **User Guide**

**Compatibility:**

**Community Edition: 1.4.x.x, 1.5.x.x, 1.6.x.x, 1.7.x.x, 1.8.x.x, 1.9.x.x**

# Installation

## Step – 1

### Check Permission

Make sure the “app” directory of your Magento store and all directory inside /app/ have full written permission directory equal to 777.

**Important Note: Change all permission back after installation.**

## Step – 2

### Disable Compilation

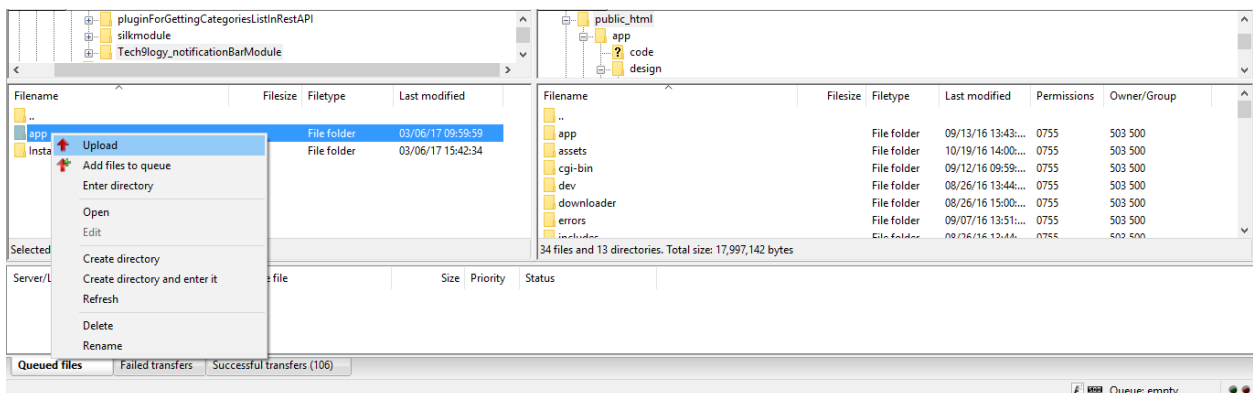

Log into Magento **admin panel** and go to **System → Tools → Compilation** and disable the compilation.

After **Step 6**, you can run the compilation process again if need.

## Step – 3

### Upload Files

Extract the downloaded Zip file and upload **app** folder from the extension package to the installation root directory of Magento.

## Step – 4

### Clear Cache

Clear all basic 5 types of cache in Magento, for this go to **System → Cache Management**

And flush all types of Magento cache.

## Step – 5

### Re-indexing

To re-index all the data, go to **System → Index Management** and then select all and click on submit button.

## Step – 6

### Re – Login

Log out and log back into **Magento Admin Panel**.

## Step – 7

### Use of Extension

Go to **System → Configuration** then in the left bar, you will get **Notification Bar** section under **Tech9logy Extensions** Tab.

The screenshot shows the Magento Admin Panel configuration page for the Notification Bar extension. The page is titled "Notification Bar" and has a "Save Config" button in the top right corner. The left sidebar shows the navigation menu with "Notification Bar" selected under the "TECH9LOGY EXTENSION S" category. The main content area is titled "Notification Bar Options" and contains the following configuration fields:
