

Magento Notification Bar Extension

User Guide

Compatibility:

Community Edition: 1.4.x.x, 1.5.x.x, 1.6.x.x, 1.7.x.x, 1.8.x.x, 1.9.x.x

Configuration

To configure the Extension

Go to **System → Configuration** then in the left bar, you will get **Notification Bar** section under **Tech9logy Extensions** Tab.

The screenshot displays the configuration page for the Notification Bar extension. The left sidebar shows the navigation menu with 'Notification Bar' selected under 'TECH9LOGY EXTENSIONS'. The main content area is titled 'Notification Bar' and contains the following settings:

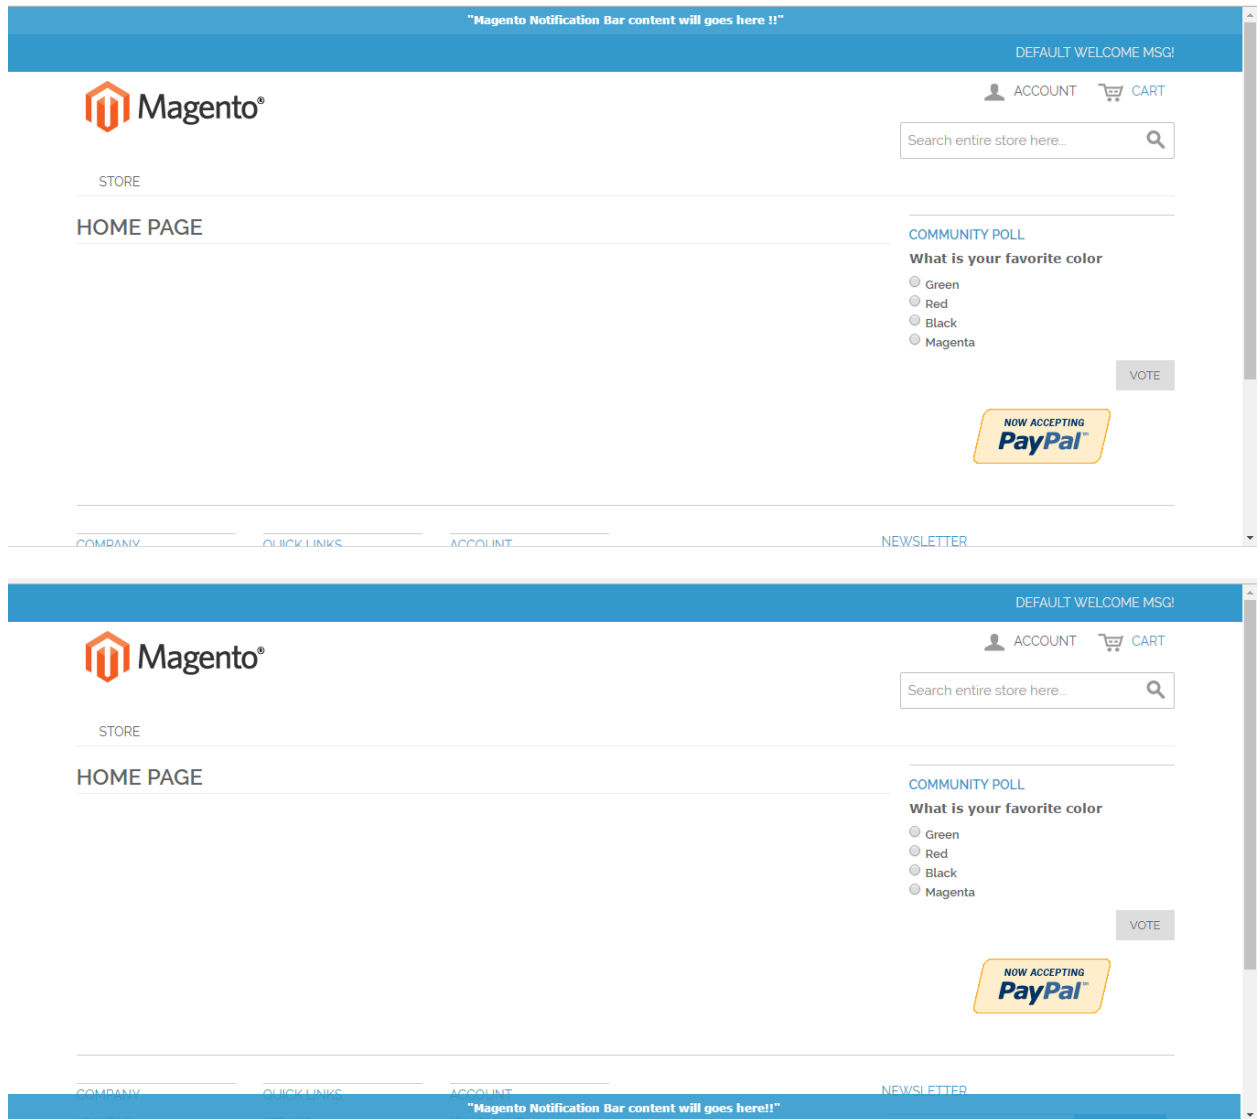

Setting	Value	Action
Enabled on Desktop	Yes	[STORE VIEW]
Enabled on Ipad/Mobile	Yes	[STORE VIEW]
Add Text	"Target Online Store!"	[STORE VIEW]
Background Color	blue	[STORE VIEW]
Text Color	black	[STORE VIEW]
Text Alignment	Center	[STORE VIEW]
Start Date	2017 February 06	[STORE VIEW]
End Date	2017 March 07	[STORE VIEW]
Notification Bar Position	Top	[STORE VIEW]

- **Enabled on Desktop** : Select yes to enable the Notification Bar on Desktop.
- **Enabled on Ipad / Mobile** : Select yes to enable the notification Bar on Ipad/Mobile.
- **Add Text** : Type Text here to show on Notification Bar.
- **Background Color** : Type here color code as text like blue , red & green etc. or as hex code like #000 , #fff & #aaa etc. for background of Notification Bar.
- **Text Color** : Type here color code as text like blue , red & green etc. or as hex code like #000 , #fff & #aaa etc. for text color of Notification Bar.
- **Text Alignment** : Select Alignment for text aligning on Notification bar. For example select center if need to show text in center of Notification Bar.
- **Start Date** : Define starting Date to display Notification Bar.
- **End Date** : Define Ending Date to display Notification Bar.
- **Notification Bar Position** : Select position of Bar to display it either on **top** or **bottom**.

And then click on **Save config** Button.

All Set!! Now you are able to use extension based upon saved setting.
